

Anti-Human/Mouse Granzyme B-173Yb

Catalog: 3173006B

Clone: GB11

Package size: 100 tests

Isotype: Mouse IgG1

Storage: Store at 4 °C. Do not freeze.

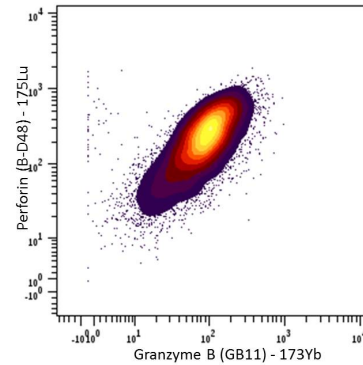

Formulation: Antibody stabilizer with 0.05% sodium azide

Cross-reactivity: Rat

Technical Information

Validation: Each lot of conjugated antibody is quality control-tested by CyTOF[®] analysis of stained cells using the appropriate positive and negative cell staining and/or activation controls.

Recommended usage: The suggested use is 1 µL for up to 3 × 10⁶ live cells in 100 µL. It is recommended that the antibody be titrated for optimal performance for each of the desired applications.

Human PBMC stained with 175Lu-anti-perforin (B-D48) and 173Yb-anti-granzyme B (GB11). Viable NK cells are displayed in the analysis.

Description

Granzyme B, also known as granzyme-2, serine protease B, CCP1, Asp-ase, and CTLA-1, is a 32 kDa serine protease. It is abundantly stored in the granules of cytotoxic T lymphocytes (CTL) and natural killer (NK) cells. Low level of expression has been reported in granulocytes, B cells, and activated dendritic cells. The protein is crucial for the rapid induction of target cell apoptosis by CTL in cell-mediated immune response.
