

## Anti-Human/Mouse CD45R/B220-159Tb

**Catalog #:** 3159015B

**Package Size:** 100 tests

**Storage:** Store product at 4°C. Do not freeze.

**Cross Reactivity:** Mouse, Human, Feline

**Clone:** RA3-6B2

**Isotype:** Rat IgG2a

**Formulation:** Antibody stabilizer with 0.05% Sodium Azide

### Technical Information

**Validation:** Each lot of conjugated antibody is quality control tested by CyTOF<sup>®</sup> analysis of stained cells using the appropriate positive and negative cell staining and/or activation controls.

**Recommended Usage:** The suggested use is 1 µl for up to 3 X 10<sup>6</sup> live cells in 100 µl. It is recommended that the antibody be titrated for optimal performance for each of the desired applications.

C57BL/6 mouse splenocytes stained with 157Gd-anti-CD3e (145-2C11) and 159Tb-anti-CD45R/B220 (RA3-6B2). CD45+ CD11b- cells are displayed in the analysis.

### Description

CD45R, also known as B220, is the longest isoform of CD45 with a glycosylation pattern resulting in a molecular weight of 220 kDa. B cells at all developmental stages express CD45R, as do subsets of T, NK, and dendritic cells. In mice, CD45R has been historically used as a pan-B cell marker, however CD19 offers greater specificity for the B cell lineage.
